

PRAIRIE AIL

Mineral feed, forage supplement,
for horses and ponies,
supplemented in garlic.

**VITAMIN AND MINERAL
CONCENTRATE**

INSECT REPELLENT

- Contains garlic

**PALATABLE, USEFUL
& RESISTANT**

- Lick bucket presentation

Available in 20kg bucket

PRAIRIE AIL

COMPOSITION

Cane molasses. Soya meal. Calcium and magnesium carbonate. Sodium chloride. Monocalcium phosphate. Wheat. Garlic powder (2 %). Lithothamnion. Magnesium oxide. Calcium carbonate. Vitamins and trace elements.

This feed does not contain any substances liable to contravene IEF rules or racing regulations.

INSTRUCTIONS FOR USE

Leave the bucket accessible in the meadow so the horse or pony can use it according to its needs and the content of the grass.

Plan for an average consumption of 500 g to 1000 g per day for a horse weighing 500 kg. Ensure that the animals always have drinking water and forage in winter.

Monitor the daily intake to prevent any excessive consumption.

To determine the best daily feed ration, please consult your Dynavena technical advisor.

Storage precautions: To preserve the feed's qualities, store in a cool, dark and dry place.
