

AVESNE FIBRE

DIGESTIVE PROTECTION
NATURAL LONG FIBRES
ANCIENT CEREALS AND GRAINS
FREE FROM MOLASSES

**Highly digestible fibre flaked feed,
forrage complement.**

For horses and ponies.
Ideal for the first meal of the day,
shaping or recovering horses.

SUBSTITUTION OF FORAGE

- Rich in long stalks alfalfa

DEVELOPMENT OF BODY CONDITION

- High content of fat (6.5%)
- Omega 3 (linseed flakes)
- Faba bean flakes

DIGESTIVE SAFETY

- Rich in flakes
- Apple pectins

AVESNE FIBRE

DIGESTIVE PROTECTION

NATURAL LONG FIBRES

ANCIENT CEREALS AND GRAINS

FREE FROM MOLASSES

COMPOSITION

Barley flakes. Cooked oat. Corn flakes. Long stalk alfalfa fibres. Linseed flakes. Faba bean flakes. Apple fibres. Pea flakes. Disaccharides. Rapeseed oil. Dicalcium phosphate. Calcium carbonate. Vitamins and trace elements.

This feed does not contain any substances liable to contravene IEF rules or racing regulations.

INSTRUCTIONS FOR USE

Introduce the feed gradually reducing the previous feed accordingly. Distribute 1 to 5 kg per day and per horse complementary to forage. When Dynavena AVESNE FIBRE represents 1/3 of the ration, it improves the efficiency of all components of the ration. Daily amounts need to be adjusted according to the animal's breed, weight and activity. Provide plenty of drinking water. To determine the best daily feed ration, please consult your Dynavena technical advisor.

Storage precautions: To preserve the feed's qualities, store in a cool, dark and dry place.

Each Dynavena feed is formulated with a highly diversified composition of GMO-free raw materials carefully selected, which 95% come from French agriculture, to provide the horse with all the essential nutrients and guarantee an optimal nutritional balance according to its activity and in respect with its physiology.
