

FOALY

**IDEAL GROWTH
& IMMUNITY**

**Highly digestible flaked milk feed,
forage supplement.**
For foals.

HARMONIOUS GROWTH

- Varied quality proteins (balance of amino acids)
- Essential fatty acids
- Diversified energy sources
- Optimal proteins/energy ratio
- Balanced mineral and vitamins contents

OSTEO-ARTICULAR SUPPORT

- Marine peptides (type II hydrolysed collagen)
- Bamboo (organic silicium)
- Chelated trace elements

DIGESTIVE SAFETY & EASY WEANING

- Milk pellets
- Probiotics (live yeast)
- Prebiotics (FOS)
- Brewer's yeast
- Apple fibres, beet pulps
- Enriched in EPA and DHA

FOALY

IDEAL GROWTH & IMMUNITY

COMPOSITION

Barley flakes. Sunflower meal. Soya bean flakes. Soya meal. Alfalfa. Milk powder. Corn flakes. Powdered whey. Linseed flakes. Oat. Cane molasses. Oat husks. Rapeseed oil. Disaccharides. Beet pulps. Apple fibres. Calcium carbonate. Dicalcium phosphate. Sea salt. Sardine oil. Live yeast (*Saccharomyces cerevisiae*). Bamboo. Fructo-oligosaccharides. Echinacea. Brewer's yeast. Bentonite. Marine peptides (type II hydrolysed collagen). Vitamins and trace elements (salt and chelates).

This feed does not contain any substances liable to contravene IEF rules or racing regulations.

INSTRUCTIONS FOR USE

Begin distributing Dynavena FOALY through a selective feeding trough with access for the foals only or by tying up the broodmare. From the 2nd month, feed as much as desired, with 2 kg as a essential target on weaning. After weaning, gradually reduce Dynavena FOALY to 1 kg per day and supplement with Dynavena CROISSANCE. Whenever there is a lack of grass, distribute plenty of your best hay.

Daily amounts need to be adjusted according to the animal's breed, weight and activity. Provide plenty of drinking water. To determine the best daily feed ration, please consult your Dynavena technical advisor.

Storage precautions: To preserve the feed's qualities, store in a cool, dark and dry place.

* < 0.1%

Each Dynavena feed is formulated with a highly diversified composition of GMO-free raw materials carefully selected, which 95% come from French agriculture, to provide the horse with all the essential nutrients and guarantee an optimal nutritional balance according to its activity and in respect with its physiology.
